

System Protection Solution Architect (m/f/d) - REF77665Y

Tus actividades

As a System Protection Solution Architect (m/f/diverse) you are member of a motivated, collaborative, and skilled team of System Protection Specialists in a global environment which supports our System Protection tools. You will be actively involved in delivery, high level design, creating and reviewing prototypes for secure and efficient security. The ideal candidate will have extensive experience in systems protection, cybersecurity, and architecture design, ensuring the security and resilience of our systems against threats.

Key Responsibilities

- Design, develop and lead implementations of System Protection tools and architecture concepts to safeguard IT infrastructure from cyber threats.
- Develop and enforce security policies, standards, and procedures to ensure compliance with industry regulations and best practices.
- High level of collaboration with Tire Cyber Security on a regular basis to define and implement relevant security concepts and ensure compliance with Continental corporate standards
- Collaborate with IT and security teams to integrate existing security solutions (CrowdStrike and Trellix ACC) with internal systems and applications.
- Perform regular audits and health checks of the System Protection environments to identify necessary improvements
- Develop and maintain documentation for processes, procedures, and associated systems.
- Stay updated with the latest cybersecurity trends, threats, and technologies to drive continuous improvement.

Tu perfil

- Bachelor's degree in computer science, Information Technology or an equivalent qualification.
- Multiple years of experience in systems protection, cybersecurity, or related roles, with a focus on architecture and design.
- Able to review designs thoroughly to make sure they meet the needs of the solution being built
- Experience with security tools and technologies, such as firewalls, intrusion detection/prevention systems (IDS/IPS), and endpoint protection.
- Excellent problem-solving skills and the ability to work collaboratively with other teams.
- Thorough knowledge in cybersecurity concepts, including threat modeling, risk management and incident response.
- Professional working proficiency in English.
- First experience with CrowdStrike and Trellix ACC is a plus.
- Working knowledge of ITIL with respect to Incident and Change

Acerca de nosotros

Continental develops pioneering technologies and services for sustainable and connected mobility of people and their goods. Founded in 1871, the technology company offers safe, efficient, intelligent and affordable solutions for vehicles, machines, traffic and transportation. In 2024, Continental generated preliminary sales of €39.7 billion and currently employs around 190,000 people in 55 countries and markets.

With its premium portfolio in the car, truck, bus, two-wheel and specialty tire segment, the Tires group sector stands for innovative solutions in tire technology. Intelligent products and services related to tires and the promotion of sustainability complete the product portfolio. For specialist dealers and fleet management, Tires offers digital tire monitoring and tire management systems, in addition to other services, with the aim of keeping fleets mobile and increasing their efficiency. With its tires, Continental makes a significant contribution to safe, efficient and environmentally friendly mobility.
