

CSV Internship - Mechanical Engineer

Vos activités

As a working student, you will work closely with different R&D disciplines as a team member to provide support during the construction of validation prototypes of power electronics enclosures and instrument clusters to meet the customer's functional requirements.

Votre profil

- Use of Creo or SolidWorks (3D Design)
- Knowledge of industrial technical drawing
- Use of machine tools
- Use of measuring equipment
- Knowledge of manufacturing and prototyping processes
- Basic English
- Support design engineers in generating three-dimensional models, creating their respective drawings, dimensioning them, and performing tolerance analysis of assemblies.

Notre offre

Continental we are committed to building an inclusive and discrimination-free ecosystem in Mexico, these principles are rooted in our corporate philosophy and culture. Therefore, it is totally forbidden to request a pregnancy or HIV test as part of our selection processes.

Ready to drive with Continental? Take the first step and fill in the online application.

A propos de nous

Continental develops pioneering technologies and services for sustainable and connected mobility of people and their goods. Founded in 1871, the technology company offers safe, efficient, intelligent and affordable solutions for vehicles, machines, traffic and transportation. In 2021, Continental generated sales of €33.8 billion and currently employs more than 190,000 people in 58 countries and markets. On October 8, 2021, the company celebrated its 150th anniversary. The Automotive group sector comprises technologies for passive safety, brake, chassis, motion and motion control systems. Innovative solutions for assisted and automated driving, display and operating technologies, as well as audio and camera solutions for the vehicle interior, are also part of the portfolio, as is intelligent information and communication technology for the mobility services of fleet operators and commercial vehicle manufacturers. Comprehensive activities relating to connectivity technologies, vehicle electronics and high-performance computers round off the range of products and services
