

ITSM Process Owner for Incident / Problem / Knowledge Management

Descrição da função

Tires IT is looking for an experienced Process Owner for Incident / Problem / Knowledge Management to join our dynamic IT Service Management (ITSM) team. This role will involve working with a diverse group of professionals to implement and continuously improve our ITSM processes in a global environment.

Main Tasks:

- Global process responsibility for Incident / Problem / Knowledge Management;
- Development of the process strategy and the process roadmap in coordination with the IT service management strategy;
- Creation and maintenance of the respective process documentation;
- Building and tracking governance and process KPIs;
- Management of internal and external service providers including budget planning;
- Independent implementation of global process implementation projects;
- Independent further development and implementation of process training.

Requisitos

- University degree in Business Informatics, Computer Science or an Engineering field;
- +3 years of experience in the development, implementation and control of IT service management processes in a global environment;
- Basic requirement: ITIL Foundation certification; ITILV3 Expert certification (desirable);
- Excellent customer service and communication skills;
- Proficient English language skills (verbal and written);
- Ability to contribute to international teams and successfully complete international projects;
- Strategic and tactical skills (e.g. developing and improving a service strategy);
- Ability to promote the topic of IT service management and to present project results, processes and concepts at all management levels in a way that is appropriate for the target group;
- Experience in project management;
- Willingness to travel (up to 15%).
