

Cloud Engineer (m/f/d) - REF78502E

Your tasks

Continental's digital capabilities are growing every day. Our Tires Cloud Practice team is building leading cloud-based IT services for the future that ensure information flows even more smoothly to Continental teams and customers around the world.

The international team operates with an open mind, trust and a healthy sense of humor. If this sounds like you – and if you love to be at the forefront of creating modern technology tools – Continental is the perfect match for you.

You will join a young team of dedicated and passionate professionals pushing the frontier of what's possible in cloud technology. As a Cloud Engineer, you'll collaborate closely with internal customers from various application and service teams across Continental to develop common building blocks and operate our shared cloud services that accelerate Continental's cloud journey.

In this exciting job you work on the following tasks:

- Designing and implementing cloud-based solutions using public cloud providers according to architecture best practices
- Developing common building blocks and reusable components to accelerate cloud adoption
- Engineering CI/CD pipelines and automating release processes for complex production environments
- Supporting internal application teams by providing cloud expertise, guidance for new applications and operational support
- Creating minimum viable products and proof of concepts to demonstrate innovative cloud solutions
- Maintaining and enhancing shared cloud services while ensuring continuous operations of production systems

The position can also be filled in India.

Your profile

- Academic degree in computer science, another technical field or an equivalent qualification
- Proven experience in building and operating cloud-native applications using serverless or event-driven architectures
- Strong proficiency in at least one programming language such as Python, TypeScript or Go
- Thorough experience with Infrastructure as Code tools like AWS CDK or Terraform
- Experience applying agile methodologies and embodying a DevOps mentality
- Demonstrated knowledge of various cloud design patterns including containerized workloads, data solutions, and server-based

- Experience working in global, cross-cultural teams across different time zones and regions beneficial
- Professional working proficiency in English

Applications from severely handicapped people are welcome.

Our offer

The job in numbers: You are going to work 37.5 hours a week in a team of 9. We offer 30 days of vacation per year.

Being part of a global IT team of thousands of colleagues working on various innovations and tasks, there is always an opportunity to grow and move into different directions within our corporation.

On top of that you can expect the following benefits:

- Individual development planning based on your personal needs and targets (e. g. mentoring, trainings, or global internal Software Academy)
- Work from home up to 2 days a week (unless workshops etc. require physical presence)
- Option to work from other EU countries up to 40 days per year
- Agile and collaborative workstyle
- Opportunity to make a difference
- Employee discounts
- An international team across 3 locations in a globally active organization
- Company and tariff pension plan
- Assistance with child-care
- Relocation package offered if needed
- Canteen on-site
- On-site physicians
- Sabbatical option

If this sounds like a perfect match for you and if you want to become the next supporter of our core values Trust For One Another, Passion to Win and Freedom to Act, we are looking forward to receiving your application.

[Diversity, Inclusion & Belonging](#) are important to us and make our company strong and successful. We offer equal opportunities to everyone - regardless of age, gender, nationality, cultural background, disability, religion, ideology or sexual orientation.
