

Cyber Defence Center Specialist for Automotive

あなたの仕事内容

Your tasks will focus on the following activities:

- Designing Cyber Defense Center (CDC) architecture.
- Developing solutions and services for the Cyber Defense Center with focus area SIEM/SOAR.
- Designing integration of threat intelligence into CDC structure.
- Designing integration of core components like SIEM, EDR, NDR, into CDC structure.
- Defining and designing interfaces and log sources.
- Supporting development of CDC-rules including detection and response.
- Supporting development of runbooks.

Experience:

- Strongly preferred: GIAC certification; acceptable: CompTIA Security+, CySA, CISCO CyberOps.
- * In-depth knowledge about open-source and commercial Cybersecurity solutions with focus on security monitoring and CDC.
- * Experience in working with Cybersecurity standards (e.g. NIST, BSI, CIS).
- * Experience with penetration testing, vulnerability assessment and IT forensics.
- * Professional Experience in Security Analysis (Monitoring and Detection), Security Automation, Product security or Security Architecture.
- * Well organized technical planning and problem-solving skills: Strong knowledge of python, and at least one query language like SQL, KQL, LQL.
- * Understanding of threat landscape and threat intelligence.
- * Knowledge about MITRE ATT&CK TTPs.

あなたのプロフィール

- Bachelor's degree (Computer Science, Information Technology or comparable).
- Well organized technical planning and problem-solving skills.
- Ability to creatively solve problems with minimal guidance, while maintaining a timely, cost effective approach.
- High motivation to work in a challenging, global acting and multicultural team.

- Advanced English Level.
