

# Tactical Pricing Manager

## Descrição da função

The Tactical Pricing Manager takes care of pricing and cost management of existing business as well as new launches. Ensuring sustainable growth and profitable business by driving all relevant pricing activities with our internal stakeholders. Supporting business model definitions and business case evaluations in close cooperation with sales, advanced development & strategic product management.

- Establish, roll-out and maintain a globally harmonized price calculation tool, valid for all locations.
- Preparation of competition pricing analysis and monitor market pricing activities.
- Identify and initiate pricing/margin improvement opportunities.
- Track and follow-up on won and lost quotes (creating a market price map and gap analysis)
- Prepare impact analysis after cost/price changes (e.g. raw material adaptations)
- Track key product cost developments and alert sales/engineering team to start countermeasures.
- Have close collaboration with product management and sales.
- Establish retrospective cost/margin analysis vs. quoted assumptions.
- Identify and implement market, customer or product opportunities and programs that drive strategic, sustainable profitable growth.
- Support Business Management to develop individual pricing strategies (e.g. product launch, project pricing, discount structure)
- Define frameworks, hurdles and regulations for pricing management tools.

## **Quem somos**

Continental develops pioneering technologies and services for sustainable and connected mobility of people and their goods. Founded in 1871, the technology company offers safe, efficient, intelligent and affordable solutions for vehicles, machines, traffic and transportation. In 2022, Continental generated sales of €39.4 billion and currently employs around 200,000 people in 57 countries and markets.

The ContiTech group sector develops and manufactures, for example, cross-material, environmentally friendly and intelligent products and systems for the automotive industry, railway engineering, mining, agriculture and other key industries. Guided by the vision of “smart and sustainable solutions beyond rubber,” the group sector draws on its long-standing knowledge of the industry and materials to open up new business opportunities by combining various materials with electronic components and individual services.
