

Specialist HR IT Platform Architect (m/f/d) - REF79364C

Your tasks

- **Architect and manages** the HR IT Global Platforms and Foundation, serving as the IT partner and provider at a global level for HR departments, Centers of Excellence, and HR Services.
- **Strategy and transformation**
 - Support transformation of business strategies and needs into an efficient and state-of-the-art IT solutions and services portfolio. Support to create implementation plans for all related IT aspects.
 - Proactively contribute to overall strategy of CC and IT.
- **Project Management**
 - Lead the implementation of global HR IT Master Data Management solutions, utilizing both cloud and on-premise technologies.
 - Review impact to architecture in projects and give guidance to achieve an optimal setup
- **Oversee the HR IT platforms**, including but not limited to SuccessFactors, SAP HCM, SAP BTP and Fiori. Oversee integrations and interfaces with relevant platforms and applications outside the HR IT landscape, e.g. Identity and Access Management.
- **Knowledge Management:**
 - Serve as the knowledge source for HR IT technologies, architecture, and data flow.
 - Maintain and update deep and broad knowledge in this strategically important field.
- **Technical Authority:**
 - Act as the technical authority within the area of responsibility.
 - Drive innovations and improve existing technologies.
 - Develop and implement strategies for the respective Expert Field.
- **Consultation and Guidance:**
 - Consult with colleagues and management within the area of responsibility.
 - Provide guidance and training to other employees.
- **Optimization and Innovation:**
 - Actively contribute to the development and implementation of new strategies and technologies.
 - Ensure optimization of global HR-IT technical landscape, platforms and data flows, focusing on strategy, portfolio, architecture and roadmap.
