

# Senior Manager Compliance

## Your tasks

### HOW YOU WILL MAKE AN IMPACT

#### SG 13

The Regional Head of Compliance Americas leads all ongoing activities in America, Canada and LATAM related to the implementation of Continentals Compliance Management System. The Compliance function consists of the Compliance core areas Business Ethics, Anti-Money Laundering (AML) and Antitrust as well as Data Compliance in the Region including but not limited to the operationalization of the Compliance strategy.

The Regional Head will form part of the Global Compliance team and represent special regional matters in this team. The job is to advise and support Continental businesses regarding its Compliance efforts and avoid potentially large fines. The Regional Head will monitor, manage and advise on compliance and data practices internally to ensure the business and its functions comply with applicable requirements. The Regional Head will be heading a small team of 5+ compliance and data compliance specialists. They will also lead the regional Export Control team, which will functionally report to the Global Head of Export Control.

- Interface between Compliance Americas, the locations in the Region and the other global Compliance departments.
- Serve as a first contact point for the locations.
- Support the Global Compliance strategy at a regional level.
- Collaborate continuously with the Central Compliance team and embrace global compliance initiatives, e.g. regarding trainings, communication, and integrity culture.
- Continuously support the improvement of design and implementation of the Compliance Management System (CMS) especially considering the regional aspects and applications of the CMS, including Data Compliance.
- Ensure the effectiveness of compliance measures in the Compliance Cycle.
- Provide legal advice on data compliance issues for all stakeholders in the dedicated region (day-to-day advice) by supporting the first line of defense.
- Implement and manage processes and standards to ensure the legally compliant treatment and documentation in the event of data subject requests (deletion and/or information requests).
- Support the identification and assessment of data protection risks and provide adequate solutions for the business.
- Support the prevention, detection, response to, monitoring and reporting of data protection breaches.
