Continental

Data Protection Officer (TM)

あなたの仕事内容

In your role as Data Compliance Officer, you will be the central contact person for all issues relating to data compliance organization as well as data protection law in Romania. Furthermore, you will be responsible for supporting Continental in complying with the requirements of the General Data Protection Regulation, relevant Romanian law and Continental Binding Corporate Rules as well as other foreign data protection laws. Another topic is the protection of the privacy of customers, employees and other stakeholders.

In detail, you can expect the following tasks and responsibilities:

· Advising specialists of departments and subsidiaries on current data protection issues

· Independently reviewing and documenting inquiries regarding data protection issues

· Reviewing and documenting within the scope of the procedure directory

· Reviewing data processing operations in the context of commissioned processing and advising the relevant legal requirements as well as reviewing agreements on commissioned processing

· Supporting the identification and assessment of data protection risks

· Supporting the prevention, detection, response to, monitoring and reporting of data protection breaches

· Preparing and implementing employee and management training in Romania

· If necessary, taking on the tasks of a data protection officer for individual companies

あなたのプロフィール

· Fully qualified lawyer with profound data protection knowledge or with focus on data protection or comparable qualification

· Professional experience in the field of Romanian and European data protection law and management

· Experience in other compliance topics in Automotive/ R&D environment is a plus

· Experience and affinity with regard to forward-looking topics such as cyber security, big data, cloud computing and artificial intelligence

会社概要

Continental develops pioneering technologies and services for sustainable and connected mobility of people and their goods. Founded in 1871, the technology company offers safe, efficient, intelligent and affordable solutions for vehicles, machines, traffic and transportation.

The Automotive group sector comprises technologies for passive safety, brake, chassis, motion, and motion control systems. Innovative solutions for assisted and automated driving, display and operating technologies, as well as audio and camera solutions for the vehicle interior, are also part of the portfolio, as is intelligent information and communication technology for the mobility services of fleet operators and commercial vehicle manufacturers. Comprehensive activities relating to connectivity technologies, vehicle electronics and high-performance computers round off the range of products and services.
