

Purchasing Business Analyst (Non Production Material) (m/f/d) - REF79842Z

工作职责

We are looking for you as a Purchasing Business Analyst (Non Production Material) (m/f/diverse) to support our area Business Area Automotive Purchasing at the location Frankfurt.

Your tasks will focus on the following activities:

- Drive the data analytics strategy and roadmap within the organization of Automotive Purchasing
- Communication, Coordination and Tracking of Activities, Milestones and Targets as a project coordinator
- Interface function within the organization with umbrella and coordination responsibility in project setup
- Conducting workshops with relevant stakeholders to gather technical, functional, and non-functional requirements and documenting them
- Analyzing and prioritizing requirements and coordinating with departments and other project participants
- Designing data models to connect data from various sources
- Designing and supporting the implementation of innovative visualization concepts to improve data interpretation and decision-making
- Designing and implementing end-to-end solutions that meet stakeholder requirements
- Data-driven analysis, including visualization and identification of relevant implications for selected Purchasing tenders for Non Production Material.
- Analyze and interpret data, incl ad-hoc analyses and communication of results

职位要求

The ideal candidate (m/f/diverse) will possess the following qualifications:

- Academic degree in Business Informatics, Business Administration, Industrial Engineering or comparable
- Several years professional experience in the above-mentioned field, preferably in Automotive or comparable industry
- Very good understanding of business processes, especially Purchasing as well as Supplier Quality Management
- Experience in project and process management, ideally in the field of digital transformation
- High affinity to digitalization technologies, cloud services and tools
- Ability to think innovatively and design and provide stakeholder-oriented digital solutions
- Capability to work collaboratively with internal and external teams
- Structured and methodical approach as well as enjoyment of analytics

关于我们

Continental develops pioneering technologies and services for sustainable and connected mobility of people and their goods. Founded in 1871, the technology company offers safe, efficient, intelligent and affordable solutions for vehicles, machines, traffic and transportation. In 2022, Continental generated sales of €39.4 billion and currently employs around 200,000 people in 57 countries and markets.

The Automotive group sector comprises technologies for passive safety, brake, chassis, motion and motion control systems. Innovative solutions for assisted and automated driving, display and operating technologies, as well as audio and camera solutions for the vehicle interior, are also part of the portfolio, as is intelligent information and communication technology for the mobility services of fleet operators and commercial vehicle manufacturers. Comprehensive activities relating to connectivity technologies, vehicle electronics and high-performance computers round off the range of products and services.
