

PCB Layout Engineer

あなたの仕事内容

- Schematic preparation and layout design for all local and global projects.
- Layout review with cross-function teams relevant layout topics, e.g. RF engineers, Mechanical engineers. etc.
- Team cross-check of layout designs including PCB layout, panel design and whole released BOMs and drawings.
- Technical review and response with suppliers, e.g. PPRCs, technical evaluation. etc.
- New set up and update Altium parts libraries.
- Responsible for the released layout documents maintain in SAP.
- Support on pre-evaluation of board size and panel design calculation at the beginning of development.
- Responsible for the design quality improvement continuously and CR/CN activities.
- Contribute to pre-development projects, Re-DTC activities.

あなたのプロフィール

- Bachelor
- More than 3 year working experice;
- At least 3 years working experience in PCB Layout Design;
- Good Circuit Design Knowledge;
- Familiar with Layout softwares;
- Knowledge of PCB IPC Standars.
- Knowledge of PCB/PCBA manufacture arts.
