## **Our offer**

Ready to drive with Continental? Take the first step and fill in the online application.

## **About us**

**SAP is our standard ERP system, which is used for all commercial processes. The SD module within the system covers all sales related functions towards our customers and is used by 13.000 users within the Continental Tire Division in 55 sales locations and parts in Europe, America, and Asia Pacific.**

**The Global Sales solution team covers the modules SD, Electronic Data Interchange (EDI) and Project Management Office (PMO), thereof the SD module is the biggest one.**

**A new era is about to start with the approach to also build up an SAP system as the back bone for the Conti Trade Sales activities in EMEA within the sector Tires.**

**As a Central Key User (SD) you act as an interface between system end users (business) and our global IT organization. You will take an responsible role in the designing the new system landscape with a front end solution in the stores European wide and the newly set up SAP S/4 system in the backend, ensuring reliable processes through the order to cash processes. This job offers opportunities to travel to the international sales location to support colleagues locally during the project design and rollout phase.**

**Being part of an international powerful and highly motivated team, you will work together with colleagues from various countries on topics, that will essentially shape the digital world of Continental Tires within the next years.**

**Team spirit is our elixir, but personal individuality is also a key factor emphasizing our diversity approach.**
