

Continental Business System (CBS) Manager

Ihre Aufgaben

The mission of the position is to plan, coordinate and control all CBS activities in order to establish CBS philosophy and methodology as well as to meet budget and CBS targets (e.g. eliminate waste, maximize delivery performance, reduce cost and inventories). Furthermore, the CBS Manager initiates and implements action plans for continuous improvement of all plant.

General Management and Strategy:

- manage and coordinate all CBS activities for the plant
- translate plant CBS strategy into action plans and ensure implementation (shared with Plant Manager)
- contribute to strategic and operative planning of the plant/operations unit (e.g. with respect to investments, capacity and headcount planning)
- ensure the achievement of CBS targets according to internal and external customer expectations
- live and promote the CBS principles and methods
- initiate and control investments for CBS equipment (e.g. training materials, external trainings, etc.)
- interface to segment, BU or BA functions in order to gather local CBS requirements and demands and other feedback
- participate in and/or steer global or local CBS related and cross-functional projects

CBS Project Management and Leadership:

- identify CBS opportunities and improvement potential, derive CBS roadmap together with plant/operations unit management
- initiate CBS projects, Rapid Improvement Events (RIE) and Just Do It's (JDI), structured problem solving, Gemba leadership and other CBS methods to leverage identified potentials
- support and ensure the implementation of CBS projects and activities according to plant/operations unit roadmap reflecting current business situation
- operate and manage idea management according to standards

Training and Coaching:

- ensure the availability of qualified employees for the CBS function in cooperation with plant HR
- initiate and control the continuous qualification of CBS employees in cooperation with plant HR
- execute workshops and coaching of plant employees and management in order to introduce and develop CBS philosophy, principles and methods throughout the plant's/operations unit's processes (e.g. lean thinking, continuous improvement culture, lean leadership, etc.)

Monitoring and Reporting:
