- Support for rumpup new processes.
- Support for bill of material management

Job ID
REF80043T

Field of work
Industrial Engineering

Location
Cairo Montenotte

Leadership level
Leading Self

Job flexibility
Onsite Job

Contact
Gloriana Baccino

Legal Entity
Continental Brakes Italy S.p.A.

Support for process innovation activities.
Support the plant's critical processes.
Support for the implementation of the plant layout.

Our offer

Knowledge fields:

Product Knowledge: advanced

Quality Tools: basic

SAP: basic

Autocad knowledge: advanced

Automotive processes knowledge : advanced

Continental Customer complaint handling process: exper

Logical Thinking; Systematic Approach; Problem Solving: expert

Reading technical drawing: expert

English fluent: advanced

Education / Certification

University degree in (mechanical) engineering or compliance education

Professional Experience

(Variety of Functions, Variety of Business, General Management Experience)

Several years years experience in large series production in Automotive.

Experience in handling complex project.

Project and/or Process Experience:

Experience in automotive process development preferred;

Intercultural / International Experience

experience in working with international teams on production topics and understanding of foreign cultures

dealing with international customers, ideally with customers abroad

proficient English is mandatory
