

Service Manager Process Automation Platforms

หน้าที่ความรับผิดชอบในงานของคุณ

We are seeking an experienced and proactive **Service Manager for Robotic Process Automation (RPA)** to lead and manage our global RPA platforms. As part of our Digital Transformation journey, you will be responsible for the operational excellence, governance, and continuous improvement of RPA services across our global operations.

This role combines technical knowledge with service delivery excellence and stakeholder management. You will work closely with business units, developers, and IT functions to ensure a scalable, reliable, and secure automation ecosystem that delivers business value.

Key Responsibilities:

- Own and manage the end-to-end RPA service lifecycle for UiPath, Power Automate or similar platforms.
- Act as the primary point of contact for all RPA service-related matters globally.
- Ensure platform availability, performance, scalability, and compliance with internal standards and external regulations.
- Establish and maintain service governance frameworks, including SLAs, KPIs, documentation, and quality controls.
- Collaborate with business stakeholders to understand automation needs and prioritize initiatives.
- Manage vendor relationships and licensing for RPA platforms.
- Coordinate incident, change, and problem management activities.
- Drive continuous improvement of automation infrastructure, delivery processes, and support models.
- Track and report service metrics and automation ROI to leadership.

โปรไฟล์ของคุณ

Required:

- Bachelor's or Master's degree in Computer Science, Information Systems, Engineering, or a related field.
- 2+ years of experience in IT service management, digital transformation, or automation services.
- Strong hands-on knowledge of **UiPath**, **Microsoft Power Automate** or **a similar RPA platform**, including deployment, administration, and licensing.
- Solid understanding of ITIL-based service management practices.
- Experience working in a global, matrixed, or industrial environment.
- Strong stakeholder communication and vendor management skills.
- Fluency in English (written and spoken).
