

Working Student - Software Integration and Test (m/f/d) - REF80695F

Your tasks

Hey, are you looking for an exciting job to work as a working student where you can gain valuable insights into the world of Software Integration and Test? Then we have just the thing for you!

We are looking for an working student (m/f/d) for Software Integration and Test in the business area BodyController development for customer projects to start as soon as possible for approx. 6 month with a working time of 20h/week.

Your tasks will include the following activities which should be done mainly onsite:

- Support in different SW DevOps activities in the area of SW test
- Assistance and maintenance servicing of the SW test systems (Hardware-in-the-Loop (HIL))
- Support in the implementation and extension of various scripts and tools in the area of SW Test and SW BuildManagement (Continuous Integration Continuous Test (CICT))

Your profile

Are you wondering if you're right for the job as a working student (m/f/d) within Software Integration and Test? Here are the important qualifications we are looking for:

- You are studying in the field of Technical IT, Electrical Engineering or a related field of study, ensuring you have foundational knowledge relevant to our work
- You should have basic knowledge and applicable experience in the field of SW Config/Build Management, Debugging, SW Development tools (IDE), Can Bus (CANoe)
- Good knowledge in various programming languages (C, Python, CAPL ...) is an advance
- Fluent written and spoken English is essential for us

In addition to these technical requirements, we are also looking for certain qualities and skills:

- You are a person with a high level of commitment, a lot of initiative and a quick grasp and can get excited about many topics
- Creativity and flexibility are a standard for you and help you to find unconventional solutions
- You are independent, goal-oriented and structured and know how to work effectively without losing the overview
- Very good communication skills and the ability to work in a team are particularly important to us - after all, we always have to work
