About us

Continental develops pioneering technologies and services for the sustainable and connected mobility of people and their goods. Founded in 1871, the technology company provides safe, efficient, intelligent and affordable solutions for vehicles, cars, traffic and transportation. In 2021, Continental generated sales of €33.8 billion and currently employs more than 190,000 people in 58 countries and markets. On October 8, 2021, the company celebrated its 150th anniversary.

The ContiTech group sector develops and produces, for example, composite materials, ecological and intelligent products and systems for the automotive industry, railway engineering, mining, agriculture and other key industries. Driven by the motto "smart and sustainable solutions that mean more than just a tire", the group's sector draws on its long knowledge of the industry and materials to provide new business opportunities by combining different materials with a range of electronic components and individual services.
