

Product Development Engineer - PLT OE

Ihre Aufgaben

HOW YOU WILL MAKE AN IMPACT

SG 10/11

- Lead tire development projects for Original Equipment (OE) customers - design a product that meets all internal, customer, and external requirements, utilizing all relevant Continental tools/databases/portals.
- Develop/execute design strategies for future OE tire development projects.
- Plan, organize and support serial production release including the preparation of all internal release documents, test reports and risk analyses. Support and resolve design related manufacturing issues during this phase.
- Plan, organize, support, and attend OE tire development project kick-off and pre-builds in plant when needed, ensuring good communication and synergies between design and manufacturing processes. (5-10% travel time)
- Plan, organize, support, and execute OE tire development test plans using OE customer specific test methods when needed.
- Plan, organize, support, and execute virtual test plans (simulation) using standardized internal methods.
- Continuously compare test and simulation results with requirements and incorporate learnings into design strategy.
- Support activities with all internal and external stakeholders to ensure flawless launch of OE tires.
- Support plant organization in the maintenance and updating of serial specifications meeting all internal, customer, and external requirements.
- Lead/support tire line development activities and/or technology projects as needed.
- Continuously share and look for learning opportunities in tire science using internal and external resources, particularly related to areas impacting tire performances required by customers.
- Share lessons learned with cross-functional team members to prevent repeat quality issues and improve the development process.

Über uns

THE COMPANY

Continental develops pioneering technologies and services for sustainable and connected mobility of people and their goods. Founded in 1871, the technology company offers safe, efficient, intelligent and affordable solutions for vehicles, machines, traffic and transportation. In 2023, Continental generated preliminary sales of €41.4 billion and currently employs around 200,000 people in 56 countries and markets

With its premium portfolio in the car, truck, bus, two-wheel and specialty tire segment, the Tires group sector stands for innovative solutions in tire technology. Intelligent products and services related to tires and the promotion of sustainability complete the product portfolio. For specialist dealers and fleet management, Tires offers digital tire monitoring and tire management systems, in addition to other services, with the aim of keeping fleets mobile and increasing their efficiency. With its tires, Continental makes a significant contribution to safe, efficient and environmentally friendly mobility.
