

HR IT Consultant

Your tasks

We are looking for a motivated and collaborative HR IT Consultant to join our Global HR Solutions Team. In this role, you will play a key part in supporting and evolving our HR IT landscape, with a primary focus on Master Data and Compensation IT Solutions - currently implemented in SAP SuccessFactors.

As a member of our international team based in Hanover (Germany), Manila (Philippines), and Timișoara (Romania), you'll work in a dynamic, cross-cultural environment that requires flexibility and alignment with EMEA working hours. While your core responsibilities will center around SuccessFactors, you'll also have the opportunity to broaden your expertise by supporting solutions in other areas such as Talent Acquisition, Health, Mobility and Workforce Analytics.

If you're a proactive problem-solver with a passion for digital HR transformation - and you thrive equally in project and stakeholder management as well as hands-on cloud system implementation - this could be the ideal opportunity for you.

Project Management:

- Ensure adherence to efficient purchasing processes, including timely involvement of purchasing department and maintaining transparent communication
- Lead projects according to established Project Management principles, with a primary focus on IT realization and coordination of vendor and in-house resources
- Collaborate effectively with Business Process Consultants to define and align technical ContiTech standards for new projects and enhancements
- Implement and maintain technical ContiTech standards as close to standard as possible to maximize scalability and maintenance efficiency
- Deliver successful and timely implementation of enhancements and projects, including new functionalities and applications

Project Budget:

- Develop and track project requests as required
- Oversee and manage the purchasing process throughout the project lifecycle, including CEOS shopping card creation and payment procedures
- Generate and communicate accurate project budget updates through the forecast process
- Maintain high reliability of project Budget and Forecast, ensuring requested budgets are consumed or adjusted in a timely manner
