

Maintenance Supervisor

Your tasks

HOW YOU WILL MAKE AN IMPACT

You will be responsible to lead plant technical resources to monitor and maintain plant processes and equipment with focus on achieving employee and customer satisfaction in a cost effective and lean way.

- Managing a preventative maintenance program that focuses on keeping the most critical equipment always running. Continuously improving the plant and KPI's related to productivity, delivery, and reducing downtime/reactive maintenance
- Addressing breakdowns in a timely manner with pareto focused approach. The breakdowns should be investigated to see where we may be able to improve the equipment
- Planning and assigning work to Maintenance personnel with the production schedules in mind
- Plan year end improvement projects that must be done while equipment is down
- Developing standards for the Maintenance Department relating to standard work instructions, spare parts, and tracking of all maintenance hours being put into the plant
- Supervises the completion of all housekeeping and other duties as assigned for the department
- Completes performance evaluations, annual salary planning, disciplinary actions and coaching for all direct reports

Your profile
