

Consultant IT Application Risk & Compliance

Vaše náplň práce

Continental's digital capabilities are growing every day. Our Sales, Logistics and Finance Information Technology Competence Center is the digital backbone of our company's Tire business - and we want you to join us!

Using primarily an SAP platform, the Competence Center ensures Continental's Sales, Logistics and Finance organizations stay on the leading edge of all things digital. From managing service requests to developing the latest solutions and systems, we are the tech foundation of these organizations.

As Consultant IT Application Risk & Compliance these will be your key responsibilities:

- Collaborate in the development, implementation and improvement of the IT Internal control Framework;
- Conduct risk assessments of IT systems, services and processes to identify potential risks and develop risk mitigation plans, reporting the results;
- Collaborate in the development of corrective actions (including internal controls, tracking & reporting) in collaboration with IT service owners and IT management;
- Develop, implement, and maintain IT compliance and governance policies, procedures, and standards in the area of IT Applications;
- Conduct regular assessments / internal controls of respective IT application services to ensure compliance with IT regulations, standards, and internal policies;
- Collaborate with internal and external auditors as well as external regulatory bodies to ensure compliance;
- Provide training, guidance and support to IT staff and other stakeholders on compliance and governance matters;
- Participate in global projects, committees and working groups to provide subject matter expertise;
- Monitoring the progress of corrective actions, working with CC team members to solve the identified issues and ensure the timely resolution.
