

AI Data Delivery Manager

Your tasks

In the Budapest Artificial Intelligence Development Centre of Continental, Autonomous Mobility, we create next generation automotive software solutions which make automated driving safe and affordable. We work towards Vision Zero, a goal to eliminate fatal accidents happening every day on the world's roads. We are looking for creative minds who are passionate to shape the future of automated driving by delivering world-class perception and fusion systems.

Our teams develop software solutions for automated parking and safety systems, processing various automotive sensor data and providing a robust, scalable output to driving function modules.

Your tasks:

- Data Delivery Manager is responsible for providing the proper quality, quantity and distribution of relevant datasets for the AI projects;
- Collect, consolidate and document data requirements from deep learning / machine learning specialists;
- Plan, request, track and facilitate labeling activities in line with project timelines including the execution strategy;
- Track and communicate the status of the data processing steps in a transparent way;
- Prepare and maintain label specification for different machine learning functions;
- Review labeling results in line with the label specification and project requirement.

Your profile

Qualifications:

- University degree (BSc, MSc) in Computer Science or other relevant engineering field;
- Relevant job experience in business analysis / project management (medior / senior);
- Automotive experience;
- Proactive mindset;
- Excellent stakeholder management skills;
- Experience with software engineering task coordination;
- Excellent command of English language;
- Collaborative, open-minded, team player attitude.

Nice to Have

- Understanding of machine learning for autonomous driving, focusing on data requirements and data pipeline;
- Understanding of ADAS sensors;
- Experience with data-driven development;

Mobility Hungary Kft.**

- Experience with agile development methods.

Our offer

- Competitive compensation and a wide range of benefits, including:
 - Bonus system
 - Annual flexible benefit (Cafeteria)
 - Private health insurance
 - Employee discounts
 - Sport pass support
- Continuous development with access to numerous trainings, including technical skills, soft skills and language skills
- Personal career development and a challenging role with end-to-end responsibility
- Opportunity to see your ideas turn into reality with our test vehicles
- Ability to directly deliver software into real, innovative products
- Easily accessible office location in downtown Budapest (near Kálvin square).

Ready to take your career to the next level and join us at the start of something extraordinary? Apply now to become a part of AUMOVIO and drive the future mobility together with us!

About us

Continental's Automotive group sector is expected to be listed as independent company "AUMOVIO" in September 2025. With ~87,000 employees worldwide and annual sales of ~€20 billion, we are entering an exciting new era.

AUMOVIO stands for highly developed electronic products and modern mobility solutions. In addition to its strong market position with innovative sensor solutions, displays, and technologically leading braking and comfort systems, AUMOVIO has significant expertise in software, architecture platforms and assistance systems for the rapidly growing future market of software-defined and autonomous vehicles. Our purpose is clear: to make future mobility safe, exciting, connected, and autonomous.
