O nás

Continental develops cutting-edge technologies and services for the sustainable, networked mobility of people and goods. Founded in 1871, the technology company offers safe, efficient, intelligent and affordable solutions for vehicles, machines, traffic and transport. In 2021, Continental generated sales of €33.8 billion and currently employs more than 190,000 people in 58 countries and markets. On October 8, 2021, the company celebrated its 150th anniversary. The ContiTech Group sector develops and manufactures, for example, cross-material, environmentally friendly and intelligent products and systems for the automotive industry, railway engineering, mining, agriculture and other key industries. Guided by the vision of “intelligent and sustainable solutions beyond rubber products,” this Group sector draws on its extensive industry and materials know-how to open up new business opportunities by combining different materials with individual electronic components and services.
