

Senior IT Consultant Vulnerability Management (m/f/diverse) - REF81849W

Jūsų užduotys

ONE ContiTech – The first choice for material driven solutions.

Are you interested in shaping the future of ContiTech together with a great team?

Please join us and contribute to our goals with your new role as **Senior IT Consultant Vulnerability Management** at our location in Hanover.

In this role, you're in charge of the following tasks:

- Continental will proactively prevent security issues by identifying and addressing vulnerabilities. As Senior IT Architect for Vulnerability Management, you will be responsible to actively manage, oversee the operation and continuously improve the service.
- The scope is worldwide and you will work within a team of cybersecurity enthusiasts in the Security Operations Center.
- You will steer the identification, prioritization and tracking of findings and act as escalation contact for external service delivery units as well as internal customers.
- With your help, the process will evolve and all stakeholders will understand particular vulnerabilities and appropriate remediation measures.

Ready to shape the future? This is your chance: You will be challenged to define strategy and implementation plans together with the team with the goal to reach next level cybersecurity.

Reikalavimai

- Academic degree or comparable Cybersecurity certifications (CISSP, GISP, ...)
- Several years of equivalent experience
- Excellent working knowledge of up-to-date cybersecurity tools and structures (e.g., SIEM)
- Experience in Cybersecurity related environments (e.g., SoC, Pentesting, Threat Hunting, Incident Response, Forensics) desirable
- Experience in a global and multicultural company and in 3rd party provider management
- Experience in project management and knowledge of automation and programming desirable
- Knowledge of client, server and cloud infrastructure and mutual understanding of applications architecture
- IT service management skills (ITIL)
- Fluent in English (written and spoken)
- Ability to aggregate information depending on target audience
- Ability to explain technical details to non-IT stakeholders

Apie mus

Continental develops pioneering technologies and services for sustainable and connected mobility of people and their goods. Founded in 1871, the technology company offers safe, efficient, intelligent and affordable solutions for vehicles, machines, traffic and transportation. In 2024, Continental generated sales of €39.7 billion and currently employs around 190,000 people in 55 countries and markets.

Guided by the vision of being the customer's first choice for material-driven solutions, the ContiTech group sector focuses on development competence and material expertise for products and systems made of rubber, plastics, metal, and fabrics. These can also be equipped with electronic components in order to optimize them functionally for individual services. ContiTech's industrial growth areas are primarily in the areas of energy, agriculture, construction, and surfaces. In addition, ContiTech serves the automotive and transportation industries as well as rail transport.
