

Local IT Software Developer Intern

Vaše náplň práce

The Local IT Software Developer Intern will be responsible for contributing to software development projects within our organization. This role requires a commitment to excellence and attention to detail in all aspects of the software development lifecycle.

- Conduct thorough analysis of software requirements to ensure precise understanding of project needs.
- Execute comprehensive software functionality tests to maintain high quality standards.
- Develop specific project applications in strict adherence to Continental's established standards and protocols.
- Design and maintain databases, ensuring optimal performance and data integrity.

Váš profil

The ideal candidate for this position must possess the following qualifications:

- Currently enrolled in a Bachelor's degree program in Computer Science or a closely related field.
- Must be at least one year away from degree completion.
- Demonstrable experience with database management systems, MySQL or SQL Server.
- Proficiency in one or more programming languages.
- Working knowledge of web development technologies, including HTML, CSS, and JavaScript.
- Familiarity with frameworks such as .NET or Laravel.
- Experience with Angular, .NET, or PHP is desirable.
- Strong problem-solving skills and a genuine passion for software development.
- Commitment to maintaining high standards of code quality and adherence to best practices.
- Ability to work effectively in a team environment.
- Willingness to learn and adapt to new technologies and methodologies
