

Business System Owner - LMS & Talent Management (m/f/d)

Descrição da função

System Ownership & Governance

Act as system/process owner for LMS and Talent Management modules (e.g., Learning, Performance, Career Development).

Configure and maintain system setup and business processes in platforms such as Workday or Oracle HCM Fusion, ensuring alignment with global and local requirements.

Establish and enforce system usage governance, compliance, and documentation standards.

Ensure accurate, secure, and legally compliant data handling and reporting.

Collaborate with IT and system vendors to manage integrations, upgrades, testing, and troubleshooting.

Project & Implementation Management

Lead and coordinate end-to-end system implementation projects for new functionalities or modules, from scoping to go-live.

Create project plans, manage timelines, dependencies, and resources.

Oversee user acceptance testing (UAT), training materials, and stakeholder communication during rollouts.

Process Optimization & Digital Innovation

Continuously review and enhance learning and talent processes through system improvements and automation.

Identify, assess, and implement new system functionalities and modules to meet evolving business needs.

Drive digital transformation initiatives by introducing innovative tools and practices within the LMS/Talent ecosystem.

Requisitos

Education & Experience - Bachelor's or Master's degree in HR, Information Systems, Business Administration, or a related field. Three to five years of hands-on experience in system ownership or configuration of Workday, Oracle HCM Fusion, or a comparable HR platform.

Expertise with Learning / Talent Management Solutions - Deep knowledge of Learning & Talent Management processes (LMS,
