

NPM Category Manager APAC _ MRO Standard

Your tasks

The Regional Category Manager MRO plans and leads all strategic aspects within the category of Equipment Maintenance, across divisions, on a regional level and develops proposals for strategic business decisions. The role provides high value procurement solutions to the business and category strategies; support third party vendor selection, vendor development, technology management and performance measurement activities. The Regional Category Manager MRO ensures best-in-class delivery of external services and products in the Equipment Maintenance category to support projects and to realize year-on-year productivity improvements, cost savings, and process improvements in close collaboration with the stakeholders in the business.

- Drive MRO regional strategy and implementation.
- Support the internal customers' demands by negotiating the best price, good quality, on-time delivery and high service level.
- Lead/drive MRO management optimization and cost improvement initiatives among Conti Asia locations.
- Coordinate the global MRO strategy implemented in the region.
- Planning, organizing and managing projects taking into account priorities, resources, budgets, issues and constraints to achieve desired results; defining clear project scope and objectives; utilizing software and tools to plan, track and report status.
- Maintaining and updating Procurement applications accordingly to the Procurement content (e.g. e-catalogs, user portal). Continuous improvement of procurement content and automation.
- Achieving results by proactively building long-term, sustainable and effective relationships, understanding the stakeholder landscape and demonstrating political astuteness across business structures and networks.
