

Global Customs Data & Performance Manager (m/f/d) - REF81298T

Tus actividades

Join our team as a Global Customs Data & Performance Manager at Group Sector ContiTech!

In this role you will be leading projects, support the development of global strategies and lead continuous improvement in the area of transparency and quality of Customs master data. While safeguarding the transparency of the ContiTech Global Trade data, you contribute within compliance as well as value creation. Together with senior management you will work on execution of Customs strategy and prepare business cases and its implementation to generate maximal business value (financial + operational excellence + customer focus). You will optimize processes and working procedures, lead global best practice and manage strategic initiatives in close cooperation with customs governance team, business, customers, suppliers and IT.

You will take over following responsibility:

- working on execution of Customs strategy and therefore develop a global communications concept for Data Management and Performance Controlling.
- take over responsibility for the global concept of Customs Cost performance and savings; implementation of global customs budget procedure, track global cost development and raise activities towards continuous improvement.
- develop concepts for Global Customs data and support their implementation to ensure full reporting, data transparency, validation of data quality and to improve the maintenance of relevant Customs master data's such as HS - Classification, Customs Broker data, Origin data and Free Trade Agreements, Customs Value and Customs Rates etc.
- collaborate both cross-functionally and cross-regionally with ContiTech stakeholders: IT, SCM, Digitalization Team and third party service providers on implementation of adequate reporting tools and dashboards; thereby defining concepts, tasks and responsibilities, as well interfaces, which will harmonize and consolidate internal and external data.
- perform analysis and enhance reporting capabilities which will provide analytical support for Customs project and initiatives.
- lead Customs projects to ensure compliance, savings and business value worldwide.
- evaluate Customs opportunities and create business cases for management; perform best practice exchange on the global scale.
- lead and track optimizations projects, properly document all achievements and prepare regular progress reporting; clarify with stakeholders, prepare presentations and conduct trainings.

Acerca de nosotros

Continental develops pioneering technologies and services for sustainable and connected mobility of people and their goods. Founded in 1871, the technology company offers safe, efficient, intelligent and affordable solutions for vehicles, machines, traffic and transportation. In 2021, Continental generated sales of €33.8 billion and currently employs more than 190,000 people in 58 countries and markets. On October 8, 2021, the company celebrated its 150th anniversary.

The ContiTech group sector develops and manufactures, for example, cross-material, environmentally friendly and intelligent products and systems for the automotive industry, railway engineering, mining, agriculture and other key industries. Guided by the vision of “smart and sustainable solutions beyond rubber,” the group sector draws on its long-standing knowledge of the industry and materials to open up new business opportunities by combining various materials with electronic components and individual services.
