

# IT Consultant for Identity and Access Management (TM)

## Descrição da função

As an IAM Consultant (m/f/diverse) you are part of a motivated, collaborative, and skilled global team of IAM responsible for providing advanced support for identity and access management (IAM) systems, troubleshooting complex issues, and ensuring the stability and security of our IAM infrastructure. This role involves collaborating with other IT teams and stakeholders to deliver high-quality support and continuous improvement.

- Consulting and Design of Identity and Access Management workflows
- Consulting in the area of netIQ IDM, Novell eDirectory infrastructure & application
- Troubleshooting, root cause analysis, documentation, and configuration in the Identity & Access Management area
- Collaborate with other IT teams to integrate IAM solutions with various applications and services
- Perform health checks of the IAM environment to identify and mitigate potential risks
- Testing of Identity and Access Management workflows and drivers on Quality before deployment
- Documentation of Identity and Access Management related processes
- Coordination of incidents and service requests related to Identity and Access Management
- Ensure compliance with security policies and industry standards for IAM
- Provide training and guidance to first and second-level support teams.

## Requisitos

- Academic degree in the field of information technology, business informatics or comparable qualification
- Strong understanding of IAM concepts, including authentication, authorization, and directory services.
- Previous experience in the above-mentioned fields and working with external providers.
- Well organized with technical planning and problem-solving skills;
- Coordination skills (customer/vendor management);
- Good communication skills and capability to discuss technological concepts
- Strategic thinking, problem-solving capability and goal oriented
- Sound technical understanding without getting lost in technical details
- Very good English language skills (written and spoken)
- Microsoft Exchange experience desirable
- Active Directory administration desirable
- IT Service management (Incident-, Change-, Problem- and Release-Management / ITIL) experience desirable
