

System Protection Engineer - Tires

Náplň práce

As a System Protection Engineer (m/f/diverse) you are a member of a motivated, collaborative, and skilled team of System Protection Specialists in a global environment that maintains and operates our System Protection tools.

Key Responsibilities:

- Provide third-level support for systems protection solutions, including firewalls, intrusion detection/prevention systems (IDS/IPS), and endpoint protection.
- Troubleshoot and resolve complex security-related issues and incidents, together with an external consulting company/vendor, if required.
- Conduct risk assessments and vulnerability analysis to identify potential security risks and develop mitigation solutions.
- Support with the implementation of security policies, standards, and procedures to ensure compliance with industry regulations and best practices.
- Perform regular security audits and health checks to ensure the effectiveness of security measures.
- Participate in IT and business projects related to the System Protection tools implementation in Continental.
- Provide training and guidance to first and second-level support teams on security best practices and solutions.
- Develop and maintain documentation for security configurations, processes, and procedures.
- Stay updated with the latest cybersecurity trends, threats, and technologies to drive continuous improvement.

Profil kandidáta

The ideal candidate will have a strong experience in cybersecurity and systems protection, ensuring the security and resilience of our systems against various threats.

O nás

Continental develops pioneering technologies and services for sustainable and connected mobility of people and their goods. Founded in 1871, the technology company offers safe, efficient, intelligent and affordable solutions for vehicles, machines, traffic and transportation. In 2024, Continental generated sales of €39.7 billion and currently employs around 190,000 people in 55 countries and markets.

With its premium portfolio in the car, truck, bus, two-wheel and specialty tire segment, the Tires group sector stands for innovative solutions in tire technology. Intelligent products and services related to tires and the promotion of sustainability complete the product portfolio. For specialist dealers and fleet management, Tires offers digital tire monitoring and tire management systems, in addition to other services, with the aim of keeping fleets mobile and increasing their efficiency. With its tires, Continental makes a significant contribution to safe, efficient and environmentally friendly mobility.
