

IT Consultant Windchill Applications OESL

Your tasks

Are you passionate about engineering excellence and digital innovation in R&D environments? Join our Business Application Product Team and shape the future of CAD and product lifecycle management at OESL by supporting and enhancing our Windchill-based systems.

Your Impact

As our IT Consultant for Windchill Applications, you will oversee and continuously improve the FIDES and ADAPT platforms used across our engineering and R&D functions. Collaborating with internal stakeholders and external providers, you'll ensure seamless CAD data management, efficient product lifecycle workflows, and reliable documentation processes—driving both innovation and compliance.

What You'll Do:

- Oversee the end-to-end delivery lifecycle of Windchill-based applications (FIDES and ADAPT), including user access, licensing, and infrastructure coordination.
- Partner with engineering and R&D to identify and implement opportunities for process optimization and digitalization across the CAD/PLM landscape.
- Drive solution enhancements by advising on workflows, release management setups, and data classification practices.
- Manage external providers and service-level agreements (SLAs), monitor vendor performance, and coordinate incident and change management.
- Ensure compliance with IT standards, data protection regulations (e.g., GDPR), and corporate policies.
- Coordinate project milestones, communicate risks and progress, and ensure alignment across stakeholders and application roadmaps.
- Apply ITIL and Agile best practices to maximize operational stability, security, and value.
- Lead or support contract and license management activities to ensure performance and cost-efficiency.
- Promote a culture of technical compliance, safety, and continuous improvement.
- Inspire colleagues to challenge the status quo and contribute to sustainable, future-ready solutions.
