

## Engineer Application Management

หน้าที่ความรับผิดชอบในงานของคุณ

As an Engineer Application Management, you are part of the Global Application Management supporting a stable and safe client application landscape and Ivanti Management Servers for Continental Worldwide.

### Responsibilities:

- Analyze, build, test, and deploy software packages for the Microsoft Windows environment.
- Perform package testing, deployment, production support, and full package documentation.
- Provide 3rd level technical support in a timely and efficient manner. Occasionally including the communication of complex problems to appropriate 3rd line support teams/software vendors.
- Installing and maintaining System Management Server (Ivanti Management Server), maintaining user scopes and patching and agent behaviors.

โปรไฟล์ของคุณ

- Bachelor's degree in Computer Science or related field.
- 5+ Years in Application Packaging and Software Deployment using Ivanti LANDESK
- Strong Microsoft Windows Operating support and troubleshooting skills including deep knowledge of the registry, file system, processes, and security in Windows and client software.
- Experience with System Management Tools such as LANDESK, Intune, Autopilot and Cloud related knowledge/experience
- Strong analytical and problem-solving skills.
- Strong communication and collaboration skills.
- Ability to work independently and as part of an international team
- Fluent in English
