About us

Continental develops forward-looking technologies and services for the sustainable and connected mobility of people and their goods. Founded in 1871, the technology company provides safe, efficient, intelligent and affordable solutions for vehicles, machinery, traffic and transport. Continental generated sales of €39.4 billion in 2022 and currently employs around 200,000 people in 57 countries and markets.

The Automotive business sector comprises technologies for passive safety, brakes, chassis, and motion and motion control systems. Innovative solutions for assisted and automated driving, display and operating technologies as well as audio or camera solutions for the interior are just as much a part of the portfolio as intelligent information and communication technology for mobility services for fleet operators and commercial vehicle manufacturers. Comprehensive activities relating to networking technologies and vehicle electronics through to high-performance computers round off the offer.
