

SQM Engineer (Mechanical / Electronic)

Vaše náplň práce

1. **Supplier Quality Assurance:** Introduce and maintain measures to ensure the quality of supplied parts and services, and develop organizational skills and competencies.
2. **Continuous Improvement:** Support improvement processes through internal audits, on-site assessments, benchmarking, and best practice sharing.
3. **Supplier Management:** Track quality deviations, enforce root cause analysis, and implement countermeasures to meet quality requirements.
4. **Strategy Implementation:** Implement preferred supplier and component strategies, lead supplier improvement programs, and align targets with business and quality goals.
5. **Data and KPI Management:** Collect and evaluate supplier quality KPIs, issue performance reports, and track target fulfillment and quality-related costs.
6. **Compliance and Audits:** Perform process audits, ensure compliance with IATF and VDA standards, and apply lessons learned.
