## 会社概要

Continental develops pioneering technologies and services for sustainable and connected mobility of people and their goods. Founded in 1871, the technology company offers safe, efficient, intelligent and affordable solutions for vehicles, machines, traffic and transportation. In 2024, Continental generated preliminary sales of €39.7 billion and currently employs around 190,000 people in 55 countries and markets.

Tire solutions from the Tires group sector make mobility safer, smarter, and more sustainable. Its premium portfolio encompasses car, truck, bus, two-wheel, and specialty tires as well as smart solutions and services for fleets and tire retailers. Continental has been delivering top performance for more than 150 years and is one of the world's largest tire manufacturers.

Our Crown Technology & Platforms team is part of the Technology Center Tires in **Hanover-Stöcken** and belongs to the Platform Development and Industrialization Truck & Bus department. We specialize in technology development. In doing so, we develop design platforms for crown area of the product, considering new applications and required performance profiles. In addition, we release existing platforms for a broader product portfolio.
