

Supervisor Production Area

Your tasks

THE POSITION

The Production Area Supervisor oversees daily operations in a designated production area, ensuring production goals are met while maintaining high standards of quality, efficiency, safety, and employee engagement. This role involves leading a team of production workers, providing guidance, training, and support to achieve or exceed targets.

Key Responsibilities:

- **Team Leadership and Management:**
 - Lead and manage a team of production workers, conducting regular meetings and one-on-one sessions.
 - Provide guidance, support, and feedback, fostering a positive and collaborative work environment.
 - Set clear performance goals, monitor employee performance through regular reviews, and enforce and maintain company standards.
- **Operational and Resource Management:**
 - Oversee daily operations, manage workflow, and ensure compliance with company policies, procedures, and standards.
 - Optimize the use of resources, including labor, materials, and equipment, to minimize waste and reduce costs.
 - Coordinate with maintenance teams to ensure production equipment is properly maintained and operational.
- **Quality and Safety Assurance:**
 - Ensure all products meet quality standards before release and address any quality issues with the quality control team.
 - Maintain a safe work environment by enforcing safety policies, conducting audits, and promoting ESH (Environment, Safety, and Health) awareness.
 - Enforce and maintain safety, quality, and operational standards across the production area.
- **Communication and Collaboration:**
 - Serve as a liaison between the team and upper management, communicating company goals, updates, and changes.
 - Address team concerns, resolve conflicts, and ensure transparent communication.
 - Work with other departments to achieve company objectives and participate in cross-functional projects.
- **Continuous Improvement and Development:**
 - Identify opportunities for process improvement and lead initiatives like Kaizen, TQM, TPM, 5S, and Six Sigma.
 - Support employee growth by identifying training needs and encouraging continuous learning.
 - Assist in developing instructional programs, process control plans,

and maintaining quality and training records.

- **Expectations and Standards:**

- Ensure team performance aligns with company objectives, maintaining high levels of productivity and quality.
- Enforce and maintain company standards in all areas of operation, including safety, quality, and efficiency.
- Follow Leader Standard Work and ensure the performance excellence program is fully functioning.
- Uphold company values, demonstrate leadership and integrity, and maintain a motivating work environment.
- Communicate all necessary information as the team spokesperson, ensuring clarity and understanding.

- **Reporting and Documentation:**

- Maintain accurate records of production output, quality issues, and key metrics.
- Prepare and submit timely reports, addressing and resolving any production issues.

- **Other Responsibilities:**

- Contribute to the development of instructional programs, process control plans, and PFMEAs for equipment. Incorporate best practices and lessons learned into these programs.
- Deliver training and present course materials, ensuring the upkeep of instructional programs, departmental work instructions, quality records, and training records.
- Develop and issue procedures and work instructions, ensure their effective implementation, and maintain necessary controls.
- Perform other duties as assigned.
