

# Salesforce Architect

## 工作职责

Continental's digital capabilities are growing every day. Our Data & Customer Solutions Information Technology team creates a wide range of technology solutions for Continental's Global Sales and Marketing teams - and we want you to join us!

Our team continuously works on the digitalization of our business-to-business processes and end consumer communication, using leading web technologies and a strong focus on data science and artificial intelligence. We run Continental's global customer relationship management platform, which supports our Sales colleagues in their daily interaction with customers.

If you'd love to join a global team that works on the latest technologies and creates value-added solutions for customers, Continental is the perfect match for you.

The Salesforce Architect is responsible for designing and implementing robust and scalable solutions within the Salesforce platform. The role demands a high level of technical expertise and involves working closely with various stakeholders to ensure that the Salesforce system aligns with the business goals and objectives.

In this exciting job you work on the following tasks:

- Driving overall technical design and architectural approach on early-stage, global Salesforce Sales & Service implementation
- Understanding and scoping the business requirements to deliver optimal, value-driven solutions for all stakeholder
- Designing scalable and innovative solutions within Salesforce
- Developing high-level architectural designs for Salesforce projects, ensuring integration with existing systems and platforms
- Conducting regular configuration, code, and security reviews
- Implementing and enforcing coding standards and best practices, including the use of design patterns, code refactoring, and code optimization
- Collaborating with the development and integration team to resolve complex technical issues during the development lifecycle
- Driving innovation by evaluating and adopting new Salesforce features and technologies as appropriate
