

Solution Architect Client OS - Digital Workplace Infrastructure OESL

Your tasks

We are seeking an experienced IT Solution Architect for Windows Client to join our Digital Workplace Infrastructure team, ensuring secure, scalable, and efficient client workplace solutions for our global IT Infrastructure organization.

Your key responsibilities will include:

- Design and develop Windows Client related architectures that align with business objectives and security requirements.
- Lead the implementation and integration of Windows Client solutions across various platforms and applications within our digital workplace infrastructure.
- Collaborate with cross-functional teams to identify endpoint requirements and develop strategies to address them effectively.
- Evaluate and recommend endpoint technologies, tools, and best practices to enhance security and user experience.
- Develop and maintain Windows Client policies, procedures, and standards in compliance with industry regulations and company guidelines.
- Coordination, design, configuration and maintenance of all endpoint related policies, tools and procedures, for our global IT environment
- Conduct regular endpoint related security assessments and audits to identify vulnerabilities and propose remediation strategies.
- Stay current with industry trends, emerging technologies, and best practices in the Windows Client area, to drive continuous improvement.

Your profile

- Minimum of 5 years of experience in IT, with multiyear experience specializing in Windows Client solutions (MDT, GPO, scripting, tooling)
- Bachelor's degree in Computer Science, Information Technology, or related field;
- Deep understanding of Windows Client OS layer and application layer
- Experience with Microsoft endpoint deployment and management solutions
- Experienced with Azure Active Directory (AAD) and Active Directory (AD)
- Proven experience in designing and implementing enterprise-level endpoint management and configuration
- Creative problem-solving skills and analytical thinking
