

Head of IT Compliance & Risk Management (m/f/d) Original Equipment Solutions - REF81073E

Vos activités

Part of the ongoing carve-out, the role involves tackling a wide range of conceptual and strategic tasks: from designing and defining new IT governance frameworks and processes to establishing foundational structures and aligning with our newly formed organizational units such as law and integrity. You should be comfortable navigating ambiguity and driving clarity in a rapidly evolving environment and more concretely:

- Develop and lead a comprehensive IT risk and compliance framework covering financial and non-financial areas
- Ensure compliance with regulatory, legal, and corporate policies while fostering a culture of risk awareness across IT
- Establish audit readiness and compliance processes that align with the company's dynamic, global, and startup-driven environment
- Oversee and optimize Business Continuity Management (BCM) and Quality Management (QM) initiatives to safeguard business integrity and improve process and product efficiency

Votre profil

- Proven experience in dynamic environments such as carve-outs, mergers, or startups (where strategic agility, rapid execution, and cross-functional collaboration are key to success)
- Bachelor's or Master's degree in Information Technology, Risk Management, Business Administration, or related field
- Certificates (Required): Certified Information Systems Auditor (CISA)
- Certificates (Preferred): Certified in Risk and Information Systems Control (CRISC), Certified Business Continuity Professional (CBCP) or similar
- Several years in risk management, compliance or IT audit, ideally within a globally-structured automotive or manufacturing organization
- Proven track record in leading 2+ enterprise-level risk management or BCM implementation projects, specifically in heavily regulated industries
- Experience managing internal audits or compliance assessments that resulted in enhanced operational efficiency or regulatory adherence
- 4+ years in a supervisory role within risk management or compliance functions, including experience in managing multidisciplinary teams
- Proven ability to influence stakeholders and lead complex projects across cross-functional teams
- Exposure to international work content in previous roles
- Fluent in English
