

# IT Project Leader (m/f/d) - Original Equipment Solutions - REF86063M

## Descrição da função

Join our dynamic team at OESL, where we are dedicated to innovation and excellence in IT services. Are you passionate about leading and driving IT Projects as a Project Lead? If so, we have an exciting opportunity for you!

## Project Planning and Execution

- Define clear project goals, objectives, and scope in alignment with business and IT strategies.
- Develop detailed project plans, including timelines, resources, budget, and risk management strategies.
- Lead and manage cross-functional project teams, ensuring smooth coordination between internal and external stakeholders.
- Oversee day-to-day project execution, ensuring milestones are met, issues are resolved promptly, and deliverables align with quality standards.

## Stakeholder Management

- Engage with both internal stakeholders (IT teams, procurement, legal, business units) and external providers to define project requirements, deliverables, and timelines.
- Conduct regular status updates and meetings with stakeholders to provide progress reports, highlight risks, and manage expectations.
- Ensure effective communication channels between all parties involved, maintaining transparency and alignment throughout the project lifecycle.

## Risk and Issue Management

- Identify potential risks and challenges in the project, developing mitigation plans and strategies to address them.
- Proactively monitor and resolve issues, escalating them when necessary to ensure that the project remains on track.
- Ensure that all projects are compliant with company policies, standards, and regulations, particularly regarding vendor contracts and security protocols.

## Financial and Resource Management

- Manage resource allocation, ensuring that the right people and technologies are available for successful project delivery.
- Ensure that vendor performance is tracked, ensuring that external providers meet contractual obligations and project requirements.

## Project Closure and Evaluation

- Complete project evaluations, including post-project reviews, to
