

# PMO (Project Management Office) Expert IT (m/f/d) - Original Equipment Solutions - REF86067F

## あなたの仕事内容

Join our dynamic team at OESL, where we are dedicated to innovation and excellence in IT services. Are you passionate about supporting IT Projects as PMO? If so, we have an exciting opportunity for you!

### Project Governance and Frameworks

- Enforce standardized project management methodologies across all supplier-related projects (e.g., Agile, Waterfall, Hybrid).
- Establish governance frameworks for project execution, ensuring all projects follow consistent processes, from initiation to closure.
- Ensure that all supplier-related projects are aligned with IT governance policies, business objectives, and compliance regulations.

### Monitoring, Reporting, and Risk Management

- Track project progress, performance, and risks, ensuring timely delivery within scope and budget.
- Conduct regular project reviews with project managers and other stakeholders, providing status updates to senior leadership.
- Identify, assess, and manage risks to project success, proposing corrective actions and adjusting plans when needed.

### Resource and Budget Management

- Monitor project budgets, ensuring resources are allocated efficiently and costs are controlled across all projects.
- Provide resource planning and allocation support, ensuring that the right teams and external suppliers are aligned for optimal performance.
- Conduct financial tracking and reporting to ensure that supplier ecosystem projects stay within budget and scope.

### Communication and Stakeholder Management

- Serve as the primary point of contact for internal and external stakeholders involved in supplier ecosystem projects, ensuring open lines of communication.
- Provide reports and updates to senior leadership, highlighting risks, budget status, and key performance indicators (KPIs).
- Foster collaboration between business and IT teams, as well as suppliers to ensure successful project outcomes.

### Continuous Improvement and Knowledge Sharing

- Identify areas for process improvements in the management of supplier-related projects, driving efficiency gains and improved governance.

- Lead initiatives to share best practices and lessons learned across the organization to continually enhance project management capabilities.
- Create and maintain knowledge management documentation for all supplier ecosystem projects, ensuring that lessons and methodologies are captured for future projects.

## あなたのプロフィール

- Bachelor's degree in Information Technology, Business Administration, Engineering, or a related field.
- Required Certifications: Project Management Professional (PMP), PRINCE2, Agile Certified Practitioner (ACP) or equivalent Agile certification
- Preferred Certifications: Certified ScrumMaster (CSM), ITIL Foundation, PMI Risk Management Professional (PMI-RMP)
- 5+ years of experience in project management, with a focus on IT-related projects, especially involving external service providers and vendor management.
- Lead or supported multiple supplier-related projects, particularly in areas such as IT infrastructure, cloud services, and software development.
- Managed cross-functional teams and coordinated with internal stakeholders (IT, procurement, legal, business units) and external vendors to ensure project success.
- Delivered projects on time, within budget, and aligned with business goals and IT strategy.
- Experience in PMO roles, ideally within a complex, multi-project environment, ensuring the implementation of governance, methodologies, and reporting systems.
- Strong leadership in guiding cross-functional teams, coordinating between internal IT, procurement, legal, finance, and external suppliers to ensure project alignment and success.
- Proven ability to develop and implement governance frameworks, project management methodologies, and ensure compliance with IT and business standards.
- Excellent communication skills to effectively lead project meetings, manage stakeholders, and provide clear and concise project updates to senior leadership.
- Experience managing multiple projects simultaneously, ensuring that resources are allocated efficiently, risks are mitigated, and deadlines are met.
- Fluent in English, another language helpful
- Exposure to international work content in previous roles

Applications from severely handicapped people are welcome.
