

Facilities Engineer

Feladatok

HOW YOU WILL MAKE AN IMPACT:

- Support the Facility Manager with contractor management responsibilities, to include daily reviews of maintenance works, planning and implementation of service contracts for interval maintenance of critical facilities systems, and interfacing with contractors to ensure they adhere to site requirements and performance expectations.
- Assist in development and implementation of maintenance plans for continued operations of the production environment critical systems including electrical, plumbing, HVAC, compressed air, humidification, and general site functions.
- Assist in development of annual facilities capital spending plans by developing a list and cost estimate of critical facility system replacements and enhancements, as needed due to aging of equipment and/or changing needs of the New Braunfels manufacturing environment.
- Support training and development of existing facilities staff related to ongoing equipment requirement to ensure that all of plant manufacturing requirements are met.
- Support the 5S initiative within the facilities staff by instructing on what is and is not proper 5S culture and behavior.
- Work on continuous improvements with the existing supplier base of facilities outside services to insure the "best" price possible with a 100% safe work environment for both the suppliers and our employees.

The expected annual salary range for this role is \$73,500 - \$97,000 a year depending on experience. This position is also eligible for a variable incentive program.

Profilja

WHAT YOU BRING TO THE ROLE:

- BS in Engineering
- Knowledge of critical building systems within a high volume manufacturing environment
- Ability to write well, communicate effectively, and interface well with administration, maintenance, and occupant personnel.

Rólunk

Continental's Automotive group sector is expected to be listed as independent company "AUMOVIO" in September 2025. With ~93,000 employees worldwide and annual sales of ~€20 billion, we are entering an exciting new era.

AUMOVIO stands for highly developed electronic products and modern mobility solutions. In addition to its strong market position with innovative sensor solutions, displays, and technologically leading braking and comfort systems, AUMOVIO has significant expertise in software, architecture platforms and assistance systems for the rapidly growing future market of software-defined and autonomous vehicles. Our purpose is clear: to make future mobility safe, exciting, connected, and autonomous.
