People Services with a Heart

As part of our HR team, we're seeking a skilled HR Services Delivery Specialist to manage, monitor, and support critical HR processes that remain in-house after outsourcing transactional services to a BPO. You'll work across Workforce Data Management, Time & Attendance, and Payroll, handling complex and sensitive cases, ensuring compliance, supporting audits, and leading internal coordination for legal, system, and policy changes.

Vendor Management & Stakeholder Management

- Monitor the service delivery of the BPO and other vendors and address any service gaps.
- Act as the primary liaison with BPO provider and other vendors for defined countries and processes in the region and participate in regular meetings with the BPO provider
- Serve as the contact point for in-house HR Services in defined countries to ensure quality services are delivered on time effectively according to the agreed SLA and KPIs.
- Monitor and continuously improve Service Level Agreements (SLA's) and performance metrics (KPIs)
- Be the first point of contact for change requests from the business in the countries of responsibility

System Support

- Manage change requests in accordance with business needs and legal requirements.
- First validation of change requests and forwarding to HR IT for further validation, documentation of change requests and system changes
- Monitor and describe legal regulation changes in the countries of responsibility and steer internal decision-making process with stakeholders.
- Final approval of system adjustments by the BPO, as well as communication and coordination of necessary tests by locations.
- Provide HR system support for defined HR systems in the countries of responsibility. Coordination of needed changes / adjustments.

Project Management

- Lead or participate in HR projects related to system / process improvements / digitalization
- Coordinate and communicate with cross-functional teams, stakeholders, and employees to ensure project alignment and success.
- Ensure project documentation is complete, current, and stored appropriately.
