

IT Consultant EDI

หน้าที่ความรับผิดชอบในงานของคุณ

Looking for a self-driven highly skilled developer to join EDI development in CT SCM/EDI competence center. This position is responsible for providing the design, configuration, testing, documentation and deployment of EDI and application interfaces for all BU. The role will require work directly with the business and other IT competence centers to define requirements and advice technical solutions.

System Change Requests: Follow the system change process by carrying out tasks as required during the full lifecycle of a system change request resulting in process improvements per defined business requirements.

Business Process Analysis and Improvements: Assist with business requirements gathering sessions and prepare assigned deliverables resulting in detailed and fully documented business requirements definitions. Implement system solutions that result in business process improvements that increase business efficiencies and effectiveness.

Project and Teamwork: Perform as a project team member and sometimes a project team lead on project implementations; executing assigned tasks resulting in successful, on time and on budget projects. Provide value as a team member in cross functional implementations while demonstrating effective interpersonal skills resulting in successful systems implementations.

Administration, Communication and Documentation: Establish responsible deadlines and manage time effectively; accurately prepare written business correspondence that is coherent, grammatically correct, effective and professional; establish effective working relationship with business users; seek input from mentors and supervisors.

เกี่ยวกับเรา

Continental Global Business Services in Manila started in June 2012 as Veyance Technologies Inc. and was acquired by Continental AG in January 2015. On the same year, it legally changed the company name to Continental Global Business Services Manila Inc., which reflects its global presence as a full-fledged subsidiary of ContiTech Division in Continental AG.

GBS Manila is composed of five (5) main work streams, structured to make processes centralized, standardized, and in leveraged technology with the support of IT group, Continental Business Systems & RPA Competence Center.

It provides end-to-end, front-to-back services; from customer service, order management, purchasing, invoice to payment, credit and collection, full finance activities, data management, and HR services including payroll, employee benefits and talent acquisition; all built to meet its customers needs.
