

Development Engineer for Textiles in Coated Products (m/f/diverse) - REF87278D

Vos activités

We are seeking a Development Engineer for Textiles in Coated Products (m/f/diverse) to join our innovative team in Hannover, Germany. In this role, you will be responsible for developing and improving textiles which form the backing for our high quality artificial leathers. You combine profound knowledge about textiles with a creative and open mind and a systematic workstyle.

Job Description

- **Develop and optimize textile solutions** to meet performance requirements and cost-efficiency targets
- **Drive innovation in sustainable textile materials**, focusing on eco-friendly solutions and long-term viability
- **Manage and enhance the raw material portfolio** through close collaboration with suppliers and coordination across international production sites
- **Conduct testing and validation** of textile properties through laboratory experiments and performance evaluations
- **Collaborate with cross-functional teams** to ensure successful product development and market implementation
- **Establish and maintain strategic partnerships** with technology providers to foster joint development initiatives and long-term cooperation

Votre profil

- Master's degree in Textile Engineering, Materials Science, or a closely related discipline
- Experience in textile engineering or related field, with a focus on textiles
- In-depth knowledge of textile construction, manufacturing processes, and material properties
- Experience with technical textiles and usage in textile coated products preferred
- Strong analytical and problem-solving skills with a keen eye for detail
- Demonstrated ability to manage multiple projects efficiently and meet deadlines
- Effective communication skills in both English and German, written and verbal
- Capable of working independently as well as collaboratively in a dynamic, fast-paced environment
- Willingness to travel occasionally for project-related purposes

Applications from severely handicapped people are welcome.

A propos de nous

Continental develops pioneering technologies and services for sustainable and connected mobility of people and their goods. Founded in 1871, the technology company offers safe, efficient, intelligent and affordable solutions for vehicles, machines, traffic and transportation. In 2024, Continental generated sales of €39.7 billion and currently employs around 190,000 people in 55 countries and markets.

Guided by the vision of being the customer's first choice for material-driven solutions, the ContiTech group sector focuses on development competence and material expertise for products and systems made of rubber, plastics, metal, and fabrics. These can also be equipped with electronic components in order to optimize them functionally for individual services. ContiTech's industrial growth areas are primarily in the areas of energy, agriculture, construction, and surfaces. In addition, ContiTech serves the automotive and transportation industries as well as rail transport.
