

Quality Lead Inspector BMN2 (12h shift 6pm-6am)

Your tasks

HOW YOU WILL MAKE AN IMPACT

1. Perform inbound and internal inspection and test of materials including visual or with various hardware, fixtures, and gauges, based on Inspection Instruction/Plan, criteria established in specific failure catalogue (including appearance, surface defects, debris, shards and similar) or under orientation of a Lead Inspector.
2. Checking parts / process at beginning of shift, in-process, and end of shift to assure adherence/conformity based on the Quality Plan (Inspection Instructions, Work Instructions, SOPs, etc.).
3. Conducts in-process sampling and physical testing of product with required paperwork. Prepare and provide inspection reports for measurements performed as needed.
4. Proper containment and control of non-conforming material. Escalate as necessary and support Production in containment(s) as need.
5. Performs other duties assigned by Lead Inspector or Quality Coordinator, for example, perform MSA Studies as an appraiser.
6. Support Customer, Internal, and External IATF 16949 audit program(s) as required.
7. In the event that an instrument or equipment is damaged, malfunctions, lost or needs replacement, it must be reported and removed from use (as applicable).
8. Maintain organized (5S)/detailed records, workstations and instruments during the activities being performed and support the activity of keeping work or inspection instructions updated as needed.
