

Ocean Freight Specialist - Americas Region

Tus actividades

HOW YOU WILL MAKE AN IMPACT

We are seeking a highly motivated and detail-oriented *Ocean Freight Specialist* to manage and optimize export operations for sea and air freight. This key role oversees end-to-end export execution from our Americas-based plants to global markets. You will handle everything from day-to-day operations to performance tracking and strategic carrier partnerships, playing a vital role in ensuring smooth and efficient international logistics.

Key Responsibilities

Export Load Planning and Execution

- Build and manage export loads in SAP for both sea and air shipments based on inventory levels and market demand.
- Coordinate transportation with contracted carriers and logistics partners, factoring in forecasts, production schedules, equipment availability, and customer requirements.
- Monitor cost performance and service level adherence, driving resolution of issues with internal and external stakeholders

Export Documentation & Customs Compliance

- Generate proper export documentation to support customs clearance and destination compliance.
- Ensure documentation meets regulatory standards and is properly stored and managed.
- Collaborate with trade compliance and freight forwarders to ensure there are no delays in the shipment process.

Invoice Auditing & Contract Management

- Audit freight invoices for accuracy against contract terms, resolving discrepancies and ensuring cost control.
- Manage carrier allocations and ensure performance aligns with contractual terms and rate structures.

Global Ocean Freight Tender Participation

- Actively participate in the annual global ocean freight tender by providing knowledge and feedback on forecast information, operational requirements, service conditions, and carrier awarding.
- Coordinate with both plant and markets to ensure carrier awarding aligns with origin and destination requirements.
- Lead implementation of awarded carriers, ensuring seamless integration and compliance with new contracts.

Continental Tire the Americas, LLC

- Oversee day-to-day coordination with freight forwarders and ocean carriers to ensure smooth execution of export shipments.
- Resolve transportation issues proactively, ensuring service levels and contractual obligations are met.
- Lead weekly operations meetings and quarterly business reviews to track performance and drive strategic improvements.
- Monitor and report global, regional, and local KPIs.

Internal Stakeholder Collaboration

- Act as the primary contact for complex, urgent, or non-standard export shipments, including one-off destinations and special routing needs.
- Facilitate knowledge sharing and best practices across export-related functions.
- Collaborate closely with the ocean freight team to ensure goals and objectives related to both imports and export operations are met.

Systems & Process Leadership

- Serve as the expert for Gnosis, SAP, TMS, Score, and Tango platforms.
- Lead the development of export KPIs and reporting tools to improve decision-making and operational transparency.

Americas Region Responsibilities

- Oversee export operations across all Americas plants, acting as the primary escalation point for local challenges.
- Apply strong knowledge of freight forwarder/ocean carrier contracts and local processes to effectively develop solutions.
- Lead and support implementation of new business or ad-hoc changes, including workshops, process improvement initiatives, and system integration.
- Maintain close collaboration with local, regional, and global sea freight teams to ensure alignment and execution of strategic goals and initiatives.

Performance Analysis & Continuous Improvement

- Develop reports analyzing shipment performance, volume trends, and current operational status.
- Leverage data from SAP, TMS, Score, and other systems to support forecasting, production planning, and transportation optimization.
- Identify and implement process improvements that enhance efficiency and mitigate financial and operational risks.
