

Working Student - Makers Garage IoT (m/f/d) - REF88014P

Ihre Aufgaben

If you love the freedom to create new technology solutions and drive them from idea to proof of concept, Continental's Digital Solutions Makers Garage is the perfect match for you.

In Makers Garage we are working in a startup-type environment designing and developing innovative applications, cyber-physical prototypes, and functional proof-of-concepts for our Digital Solutions Tires business.

For our team at the location **Hanover-Stöcken** we are looking for a working student (m/f/diverse) starting **as soon as possible (October /November 2025)**. The position comes with a working time of **20 hours per week** for at least **12 months**.

As an Embedded working student you will...

- develop software and/or hardware prototypes to demonstrate the feasibility and functionality of concepts.
- keep current with technology trends, relevant academic research, software skills and tools and disseminate this knowledge among experts and team members.
- exploratively figure out innovative solutions to given problems in a design thinking manner.

Ihr Profil

- Student (m/f/diverse) in Electrical Engineering, Mechatronics, Informatics, Embedded Automation Design, or related field
- Experience in programming with C/C++/C# for embedded systems, microcontrollers such as Arduino, Raspberry Pi or others (Python, Java etc.)
- Confident handling of MS Office-programs
- Very good English skills, both written and spoken and German skills beneficial
- High team orientation, open-minded, and analytical thinking

Please attach your current certificate of enrollment and also your current transcripts of records and an extract of certificate for a mandatory internship. Those documents are mandatory for processing your application. If required, please submit your valid residence permit as well as your work permit including the additional sheet.

Applications from severely handicapped people are welcome.
