

Production Area Leader Banner & Pocket

Descrição da função

The Production Area Leader plays a critical role in ensuring the safe, efficient, and compliant operation of the Banner & Pocket production area. This position is fully accountable for safety, daily operations, and continuous improvement, while also contributing to strategic planning, workforce development, and quality enhancement. The leader acts as a key liaison between shopfloor teams and support functions, driving performance and fostering a culture of excellence.

Daily Operations

- Ensure adherence to quality standards, SOPs, and inspection protocols.
- Lead SAT4 meetings for Curing & OB issues and escalate to relevant departments.
- Monitor and report daily GT stock inventory.
- Enforce discipline and manage daily manning arrangements.
- Ensure smooth execution of production plans; revise programs as needed.
- Lead shopfloor issue resolution for Curing & OB.
- Coordinate with Engineering during breakdowns and prioritize repairs.

Adherence & Compliance

- Ensure compliance with SH policies, QMS, PPS, and internal procedures.
- Coordinate and document counseling sessions.
- Ensure availability of updated Work Instructions and Specifications.

Projects and Continuous Improvement

- Develop and execute corrective and contingency plans.
- Improve and stabilize process capability and efficiency.
- Troubleshoot issues and implement solutions using structured analysis.
- Drive continuous improvement and collaborate with support functions for improvement initiatives.

Production / Quality / Efficiency Improvements

- Implement efficient processes to meet output and quality targets.
- Maintain production quality through robust process controls.
- Align equipment, tooling, and processes with product requirements.
- Execute corrective actions and CI activities related to scrap, rework, tire weight, and cured tire dimensions.
