

Enterprise Architect and Application Portfolio Manager (m/f/d)

Vos activités

Join our dynamic team at OESL, where we are dedicated to innovation and excellence in IT Governance. Are you passionate about IT enterprise architecture? If so, we have an exciting opportunity for you!

Key Responsibilities:

OESL is looking for an IT Enterprise Architect and Application Portfolio Manager to join our dynamic IT Framework & Strategy team.

As an IT Enterprise Architect and Application Portfolio Manager you will take over responsibilities for the entire chain of IT Architecture and Application Portfolio Management - from the governance perspective (architecture framework), transition perspective (guiding implementations) down to technical and operational tasks (service ownership).

Main tasks:

- Governance perspective
- Definition and implementation of the enterprise architecture management strategy, governance and roadmap
- Transition perspective
- Define, establish and manage the Enterprise Architecture Management (EAM) and Application Portfolio Management (APM) organization (Boards and Communities) with defined roles and responsibilities.
- Conduct Enterprise Architecture Management and Application Portfolio Management trainings
- Consult internal stakeholder (eg architects, application owner)
- Support projects in architecture related topics
- Taking over the project management for smaller architecture related projects
- Technical and operational tasks
- Taking over ownership of IT-Architecture and application-portfolio
